

Placement & Higher Studies

Important Notes:

• Median Salary per annum should be entered.

• To calculate median salary of placed graduates, arrange the salaries of placed graduates in order from smallest to largest value. If there is an odd number of salaries of placed graduates, the median is the middle value. If there is an even number of salaries of placed graduates, the median is the average of the two middle values.

• For example, if 100 students were placed, arrange all 100 students' salaries from smallest to largest and find the middle value. This is the median salary of the placed graduates for the respective year.

• Enter value(s) in all the field(s). If not applicable enter zero[0]

• Data for the previous two years for each program has been submitted last year to the University. However NIRF has asked for additional information. Please take care to filling the same details as you submitted last year.

UG [3 Year Program(s)]: Placement & higher studies for previous 3 years

Academic Year	No. of first year students intake in the year	No. of first year students admitted in the year	Academic Year	No. of students admitted through Lateral entry	Academic Year	No. of students graduating in minimum stipulated time	No. of students placed	Median salary of placed graduates per annum (Amount in Rs.)
